

United Equipment Group

Engineering Solutions Specialists

Engineering

[,en·dʒə'niər·iŋ]

“The application of scientific and mathematical principles to practical ends such as the design, manufacture, and operation of efficient and economical structures, machines, processes, and systems”

Established in 1994, UEG offers since then a comprehensive spectrum of practical and economically feasible solutions and support services to a wide selection of construction applications.

Our Products and Services vary from the supply of Lifting Equipment, Generators, Building Maintenance Units, Pumps and Engineering Solutions.

Our Understanding for our clients needs is our backbone.
For all our Products & Services we are able to offer the right engineering solutions.

Future: we shape it

United Equipment plays a significant role in providing the construction industry with highly reliable 24/7 economically and technically feasible and practical solutions.

LIFTING EQUIPMENT

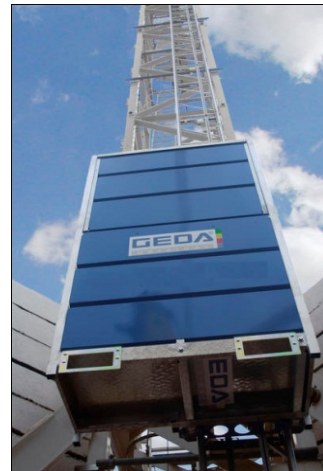

United Equipment Group offers Lifting Solutions for nearly all applications. Having the largest Tower Crane Rental Fleet in Qatar we are able to provide machines in the range from 60mt up to 1100mt.

Mobile- and Crawler Cranes complete the range of Construction and Industrial Lifting Equipment.

Construction & Industrial Hoists are also part of our product range.

For the civil construction industry we offer a wide range of Building Maintenance Units.

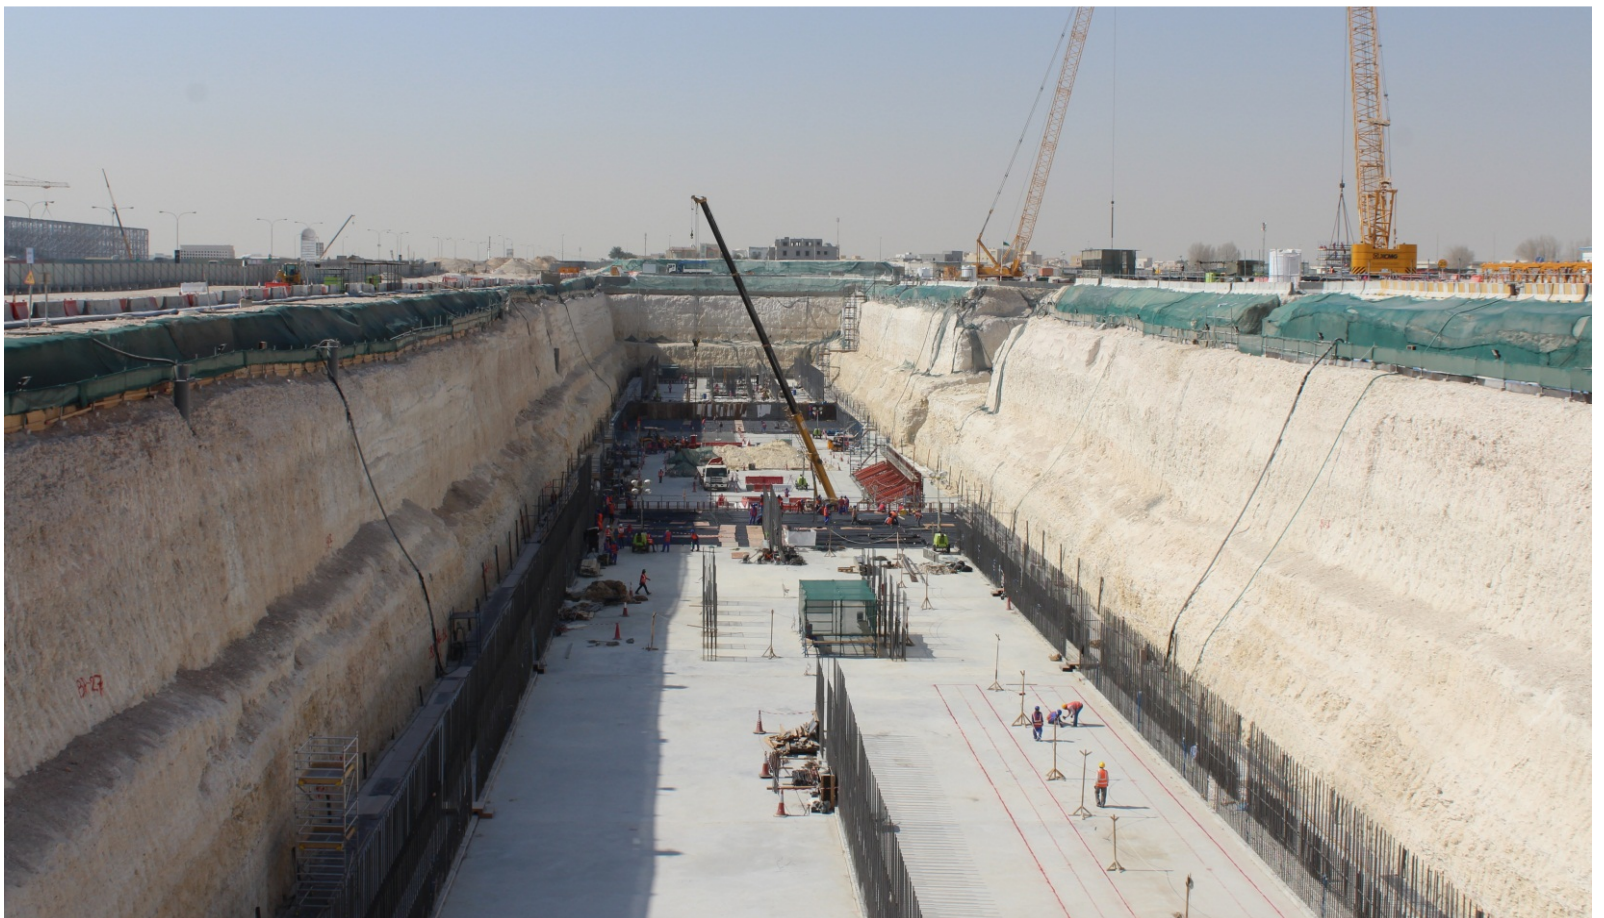

Our Industrial Clients rely on our expertise of Overhead- and Gantry Cranes.

DEWATERING

With more than 3.300 pumps and more than 30 km of hoses we at United Equipment Group have everything what it takes to fulfill your Ground Water job.

Our services include the Consultation, Dewatering, Water Treatment, Well Drilling and Ground Water Management.

POWER GENERATION

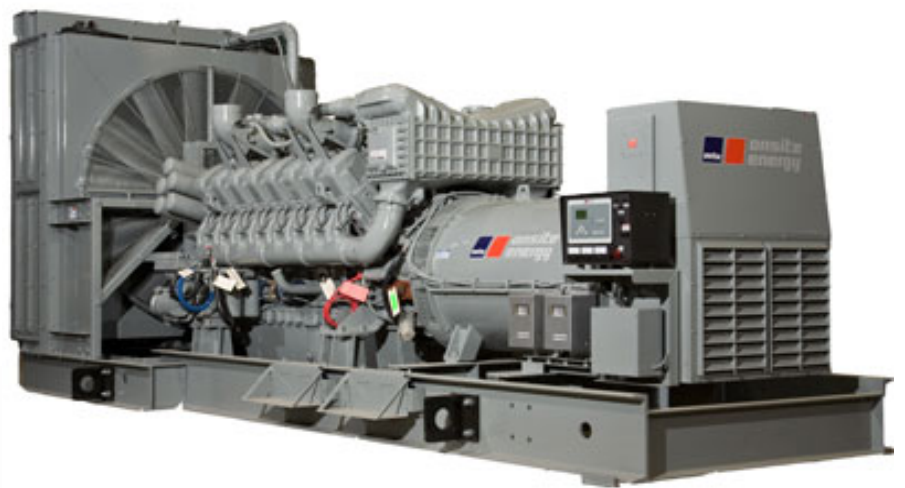

United Equipment Group offers Generators for Sales and Rent. Our products are designed to serve our clients needs in every range of their activities.

In general there are two fields of Power Generation:

Prime Power application – as commonly used on construction sites

Stand By Power – used as Emergency Power for Data Centers, Hospitals, etc.

From simple small Generators up to complete Turnkey Solutions we are able to provide you the Power Solution you need. Engineered till perfection.

PUMPS

Nobody knows the needs and requirements of a good pump better than an excessive user.

With our experience and Know-How we chose the right products for ourselves – and our clients. Then only the best is good enough.

United Equipment Group sells pumps in all sizes for all applications in the construction industry. And provides also the Service of the same.

CONTAINER

Mobile rooms crafted to perfection. What ever requirement our clients have, with our partner ELA from Germany we are able to provide offices, accommodation, camps and any other room solution.

OUR BRANDS

We rely on our Business Partners and Associates like our clients rely on us. Therefore United Equipment Group is dealing solely with world known Premium Brands and Manufacturers.
